Re: Home Incarceration Pre-Approval

Dear Jobadiah Weeks,

We have pre-approved you for enrollment into the Shadowtrack community based home monitoring program, pending the court's approval and the offense is not violent or sexual in nature. Please present this letter to your attorney, Judge, and/or the prosecutor in your case. If they have any questions, please have them call our office for additional details about the program.

Shadowtrack Technologies, Inc. has been providing its unique voice biometric monitoring solution for the courts all over the country for over a decade. The six benefits we offer the Courts, Prosecutors, Probation Officers and the Offenders are as follows:

1. Positive offender identification through random voice biometric interaction with facial recognition as a back up
2. No geographical boundaries (The offender can live anywhere in the country)
3. Detailed compliance reports
4. All alerts are investigated by our compliance officer
5. Affordable and dignified solution
6. Optional random sobriety compliance monitoring (Additional Fee)

Should the court accept this program, curfew monitoring will take place at the following location: 66 Lake Road, Far Hills, NJ 07931.

A schedule will be created to deliver random verification sessions to verify presence at your restricted curfew location. Allowance for work, school, medical, and any other court ordered activities are created in the schedule. We can accommodate the court's desire to limit activities or allow additional time away from home. Detailed reports are available to the court, prosecutor, and probation officer by request or, we can deliver instant notification if required.

# Welcome to Shadowtrack

Shadowtrack is a House Arrest monitoring and an offender communication platform tool available to the Community Corrections industry that can be used as an alternative to expensive, traditional and embarrassing House Arrest, Home Incarceration

([https://shadowtrack.wpengine.com/services/home\\_incarceration/](https://shadowtrack.wpengine.com/services/home_incarceration/))

monitoring or Home detention methods. With Shadowtrack, it is not necessary for the enrollee to install expensive electronic monitoring devices on themselves or at their residence for

House Arrest monitoring

# A Monitoring System Focused on Outcomes

Based upon your assessment of public threat, recidivism risk, and criminogenic needs, Shadowtrack has the ability to supplement modules and web based reporting.

For all community supervision programs, Shadowtrack offers a sophisticated array of self-contained modules providing house arrest monitoring, home Incarceration, home detention, voice

recognition, identity verification, alcohol monitoring, interactive voice interview, self reporting, collections and compliance monitoring. These modules can be used individually or combined with other Shadowtrack components. Shadowtrack can also be integrated with devices from other compliance monitoring firms as well as caseload management systems.
